ABOUT IASTA

Indian Aerosol Science and Technology Association (IASTA), since its inception in 1988, has been working towards the growth of aerosol science and technology disciplines and their applications in the country by way of organizing conferences, workshops and by bringing out biennial Bulletins and other publications.

THE CONFERENCE

The conference will offer three days of plenary lectures, contributed papers in the form of platform and poster presentations and exhibition of different products and systems related to aerosol research and technology and allied areas.

TOPICS

In addition to the theme topic "*Aerosols & Clouds : Climate Change Perspectives*",

submissions are invited on several other topics listed below:

- Aerosol Fundamentals : Physics and Chemistry
- Aerosol Instrumentation
- Aerosol Characterization: Atmospheric and Indoor
- Aerosol Remote Sensing
- Aerosol Radiative forcing
- Aerosol Deposition and Transport
- Nuclear and Radioactive aerosols
- Bio-Aerosols and clean room applications
- Aerosols in Health and Agriculture
- Aerosol-Trace gas Interactions
- Nanoaerosols and Material synthesis

CALL FOR PAPERS

Participants are requested to send an extended abstract (not exceeding four A4 size pages, including figures) to the Convener by Nov. 30, 2009. It is proposed to bring out pre-proceedings of the Conference. Acceptance notification will be communicated by Jan. 5, 2010, with a request to submit their final abstract in camera-ready form (hard copy as well as soft copy in word format) by Jan. 31, 2010.
